PMB014
PM-LIST SPECIAL CHARGES

PROGRAM FUNCTION:

This program will list records in the specials type file (UASTYP00).

REQUIRED RESPONSES SUPPLIED BY OPERATOR:

01    Limits/Printer Prompts
02    List in detail or summary?  (D or S)
03    List all or select special types?  (A or S)
04    (If "S")  Enter special types (20 max)
05    Include, exclude, or process all code areas?  (I, E, or A)
06    (If I or E)  Enter code areas (24 max)
07    Print address and legal?  (Y or N)
08    List non-applicable special types?  (Y or N)
09    Sort by parcel or alpha?  (P or A)

COMMENTS:

None

OUTPUT SUMMARY (or NA):

The detail report (if requested) lists the parcel number, code area, owner name, address and legal (if requested), special code(s), type(s), unit(s), amount, and prompt responses.

The summary report will give totals for each special code.  It will also list a breakdown of the special type amounts for each special code along with a grand total for all special codes and your prompt responses.

The non-applicable report lists the parcel number, special type, and units.

SPECIAL CONSIDERATIONS:

Special types with invalid types (no match in the UASDTL00 file) or with zero units will not list.  Run PMB015 to list these.
